

STATE OF WISCONSIN

**GOVERNOR'S TASK FORCE ON
REDUCING PRESCRIPTION DRUG PRICES**

CIVICATM

Delivering **Quality** Medicines that are
Available and **Affordable**

Civica – COVID-19

- Mission of Civica: Provide essential quality medications to the patients who need them.
- Prioritization: From the health systems that utilize the medications.
- 10 of the 19 medications that Civica is currently manufacturing and distributing are being used in clinical protocols to treat COVID-19 patients
- These medications include (but are not limited to):
 - Fentanyl
 - Morphine
 - Midazolam
 - Ketamine
 - Sodium Bicarbonate
 - Vancomycin

Civica Rx - Established in September 2018

Serving in the public interest as a **non-stock, non-profit** corporation to address shortages of generic drugs while lowering their cost

Founded by **leading health systems** concerned about generic drug shortages, and **philanthropic members** passionate about improving healthcare

Committed to transparency, a **one-price-for all model**, and its membership is open to all

Civica's Role in the Generic Drug Market

1

Bring true competition to the generic market, focusing on value (price and quality)

2

Ensure stable and predictable supply of essential generic drugs, correcting shortages

3

Be a conscience of the market, serving as a check against aggressive pricing behavior of generic drug manufacturers

How Civica Works

REDUCING DRUG SHORTAGES THROUGH COLLABORATION

Health Systems

Member health systems prioritize the medications needed to reduce shortages for patients and identify the volume requirements for their hospitals.

Manufacturers

Manufacturers commit their production capacity based on long-term projected volumes of medications identified by the health systems.

Result

Reliable supply of essential generic medications promptly improves patient care.

Civica's Three-pronged Manufacturing Approach

1

Work with generic drug manufacturers that have the US FDA approved manufacturing facilities to produce generic drugs under Civica's National Drug Code, allowing manufacturers to re-enter the market or increase existing capacity.

2

Develop Abbreviated New Drug Applications (ANDAs) for generic drugs and working with contract manufacturing organizations to produce Civica medications.

3

Acquire/build Civica manufacturing facilities using Civica's ANDAs

Progress on partnering manufacturing strategy

19 drugs, prioritized by Civica health systems, either available for delivery to our health system partners or in production including:
